Presenter: Wei-Lun Lee

Introduction

Wei-Lun Lee is Professor at the Department of Counseling and Clinical Psychology, National Dong Hwa University, Taiwan. He is also a licensed clinical psychologist in Taiwan. He received his doctoral degree (1999) in clinical psychology from Duquesne University. His areas of specialization include phenomenological psychology, phenomenological methodology, psychotherapy as ethical care, and the development of indigenous clinical psychology. Dr. Lee is currently interested in building up a psychological healing model called “existential hypnotherapy” and articulating a training framework called “praxical psychology” with Hannah Arendt’s inspiration. Selected publications: “Ethnic self-understanding: Ethnic cultural psychology as an action toward culture and ethnicity” (2006); “Contacting and enacting ‘self for being ethical’: A model for psychotherapy Practiced in Taiwan” (2007); “From pathology to ethicality: Changing frameworks for the study of victims of childhood sexual abuse” (in Chinese, 2008); “Phenomenological methodology as an existential move” (in Chinese, 2009); “Psychotherapy as a locale for ethical care: The reaching into situated negativity” (in Chinese, 2009); “Bracketing into face-to-face encounters: The conjunction of the epistemological and existential dimensions of phenomenological methodology” (2014). Dr. Lee can be reached at wlee@gms.ndhu.edu.tw, or leeweilun.tw@gmail.com.
